### Citation Indexes for Science

A New Dimension in Documentation

through Association of Ideas

Eugene Garfield

"The uncritical citation of disputed data by a writer, whether it be deliberate or not, is a serious matter. Of course, knowingly propagandizing unsubstantiated claims is particularly abhorrent, but just as many naive students may be swayed by unfounded assertions presented by a writer who is unaware of the criticisms. Buried in scholarly journals, critical notes are increasingly likely to be overlooked with the passage of time, while the studies to which they pertain, having been reported more widely, are approach to subject control of the literature of science. By virtue of its different construction, it tends to bring together material that would never be collated by the usual subject indexing. It is best described as an association-of-ideas index, and it gives the reader as much leeway as he requires. Suggestiveness through association-of-ideas is offered by conventional subject indexes but only within the limits of a particular subject heading.

If one considers the book as the macro unit of thought and the periodical article Citation Index 引文索引

Dr. Garfield 1955年在 <u>Science</u> 发表论文提出将 引文索引作为一种新的文献检索与分类工具:将 一篇文献作为检索字段从而跟踪一个Idea的发展 过程及学科之间的交叉渗透的关系。 引文索引

## Web of Science & AI融合 新功能

坚持精挑细选,维护学术文献收录的高标准

Original 科睿唯安 科睿唯安 2023-03-22 17:31 中国香港

#### 因质量不达标,50余家期刊今年已被移出Web of Science收录名单。

科睿唯安肩负着为客户提供可信赖的学术信息、帮助客户建设更美好世界的重要责任。随着学术文献变得日益鱼龙混杂,科研界对经过严格缔选的高质量文献来源的需求变得越来越繁迫。

AI期刊监控工工具,识别 期刊中的异常出版行为

动采取更多措施应对日益增长的影响学术资料完整性的威胁。我们开发了一个新的AI工具,帮助识别那些表明某个期刊可能不再符合我们质量标准的异常特征。

这项技术大大提高了我们识别异常特征和重新评估期刊的能力。今年年初这项技术就已标 记出500多份期刊。针对期刊的评估还在进行,但到目前为止已经有50多种被标记的期刊 未能达到我们的质量标准,并从收录列表中移除。

这些被移除的期刊来自不同的国家地区,其中约一半由大型商业出版社出版,另一半则由 小型或协会出版社出版。移除决定都已全部转达给了这些出版机构,出版机构会负责将结 果传达给它们的编委会、作者和读者。

一旦确认期刊不再符合质量标准,我们就有责任采取行动。我们将继续识别那些值得关注 的期刊,并将任何不符合我们质量标准的期刊移除出去。

#### 承担维护科研诚信的共同责任

我们的Master Journal List提供了可检索的期刊收录和覆盖信息,一直向公众免费开放。 这个期刊列表每月更新一次,可以认为是关于期刊收录信息的权威来源。

科睿唯安坚持研究如何以更加透明的方式在Web of Science添加和移除收录的期刊,为此 我们邀请出版机构积极与我们合作,一起讨论如何解决他们在这一过程中面临的挑战和问题。

我们都肩负着**维护科研诚信原则的**共同责任。我们相信,通过与出版机构和其他利益相关 方的合作,我们一定能捍卫学术文献收录的高质量,让研究成果惠及人类日常生活。
